

BILLING & PAYROLL

Complete Operations Guide & SOP

SECTION 01. Pay Rate Inconsistencies

Overview

A caregiver should never receive two different pay rates for the same client. When two rates appear for the same CG-client pair, it is always a setup or data entry error that must be corrected before the billing run.

The Problem	The Fix
- CG is receiving two different rates (e.g. \$15/hr and \$20/hr) for the same client - One client should always have one consistent pay rate, no exceptions - Usually caused by a data entry error or billing setup issue - If left uncorrected, it causes payroll discrepancies and potential overbilling	- Go to the client's profile and identify the correct rate (check intake or contract) - Correct all affected shifts to the single accurate rate - Review of prior weeks for rates already processed in payroll or billing - If billing is already sent at wrong rate, inform the CCM and Shannon

☐ Mayers, Bonnie					
☐ Ralph Kennedy	9/1 11:15a-2:45p	3.5	\$18.00/hour	(h) \$94.50	
☐ Hunter McGlamery	9/2 12:30p-2:30p	2	...833 \$15.00/hour	\$30.00	
☐ Hunter McGlamery	9/3 11a-1p	2	\$20.00/hour	\$40.00	
		7.50	0.00	0.00	\$164.50

Same caregiver, same client but different pay rate.

One rate per CG per client. Any discrepancy must be corrected before the billing run.

SECTION 02. Flat Rate & Per-Visit Billing

What Is Per-Visit (Flat Rate) Billing?

Some clients have a flat fee per visit rather than hourly. The fee is tied to a specific visit duration (e.g., 1-hour visit = \$90, 2-hour visit = \$120, 3-hour visit = \$130). Both billing AND payroll are set as flat per-visit amounts.

The Three Scenarios

SCENARIO A - Normal Visit No Action	SCENARIO B - ≤15 Min Over Adjust Time	SCENARIO C - >15 Min Over Investigate
- CG works exactly the per-visit hours - Bill at per-visit rate as configured - Pay CG the per-visit payroll amount - No adjustments needed	- Adjust the clock-out back to the authorized visit duration - Keep the per-visit rate for both billing and payroll - No additional shift needed	- Did CLIENT ask CG to stay? → Bill hourly for extra time - Was it CG's fault? → Add separate shift 'Pay but Do Not Bill' - We do NOT bill client unless they asked the CG to stay

Flat visit rate

☐ Boyd, Anna					
☐ Amy Polk	9/4 1p-4p	3	\$120.00/visit	\$120.00	
		3.00	0.00	0.00	\$120.00

Flat rate threshold = 3 hours or less. For 15+ min over: always check intake for the quoted hourly rate before switching billing types.

SECTION 02B. Couple Clients & Shared Caregiver Billing

Overview

Key principle: When one caregiver serves a couple, both clients have separate profiles. The caregiver is paid ONCE (on one profile), but each client is billed separately. The \$0.00 pay on the second profile is intentional; it is NOT an error.

How Billing Works

- Each client (e.g. Joe Webb and Nancy Webb) has a separate WellSky profile
- Both profiles are billed \$67.50/visit, each client is charged independently
- Total revenue: \$67.50 × 2 clients = \$135.00 for the same shift
- This is correct, two clients received the service

How Payroll Works

- The CG is paid ONCE, on the profile designated as the 'pay' profile (e.g., Joe Webb)
- CG pay: \$67.50 on Joe Webb's profile
- CG pay: \$0.00 on Nancy Webb's profile (same shift, already compensated)
- The \$0.00 is correct and expected, it is NOT a payroll error

Couples care; each person has a profile.

Clients/ Communities	Date	Reg	OT	DOT	Auth	Rate	Total

Audit: How to Identify Couple Profiles

- **Identifying couple profiles:** Same last name + same address + same CG + same shift times, these are likely a couple. Couples don't always share a last name; verify in intake.
- **Verify \$0.00 pay is intentional:** Only correct when the same CG is paid on a linked profile for the same visit. If there is NO linked pay profile, investigate immediately.
- **Both profiles must be billed:** Confirm both client profiles show the correct billing amount. If one profile is missing the bill, the client is being undercharged.

The \$0.00 pay entry on the second profile is not a billing error. The concern is when \$0.00 appears WITHOUT a corresponding paid profile. Always verify both profiles before flagging.

SECTION 03 - Client Not at Home

Scenario

Situation: Client has a per-visit shift. CG arrives but the client is NOT home. In this situation we pay the CG for 2 hours of their time. The client is NOT billed (Pay but Do Not Bill).

WRONG: Pay CG the Per-Visit Rate

- Paying per-visit when CG only worked 2 hours overpays relative to an hourly rate
- The per-visit rate is designed to compensate for a complete visit of a specific duration
- If the full visit did not occur, the per-visit rate does NOT apply
- This would be paying the CG more than they earned for the partial time

CORRECT: Pay CG Hourly for 2 Hours

- Convert pay to hourly for the 2 hours the CG was present and waiting
- Calculate the CG's hourly equivalent rate and pay for exactly 2 hours
- Do NOT bill the client — enter shift as 'Pay but Do Not Bill'
- Add note: 'Client not home — CG paid hourly for 2 hrs, not billed per-visit'
- Apply billing/payroll tag + check BOTH checkboxes

Carlton_Kay									
Sylvia Taylor	9/3 9a-11a	2		\$0.00/N/A					N/A
		2.00	0.00	0.00					\$0.00

Caregiver is getting paid two hours for showing up when the client is not at home, but the note was incorrectly added.

09/03/2025 Please pay caregiver 2 Hours for arriving and client and Ah sent her home as she could not drive her to the stores today due to Transportaion mainteance_jr. (Added to shift that Occurs once on 09/03/2025 from 09:00 AM CDT to 03:00 PM CDT for Kay Carlton; assigned to caregiver Sylvia Taylor)

Accounting: Payroll General Note

Related to: Kay Carlton, Sylvia Taylor

Created by Jessica Reyna on Sep 03, 2025 09:13 AM

Note was added but the Billing and Payroll checkbox was not selected.

Per-visit rates only apply when a full visit of the specified duration is completed. Partial visits = hourly pay. Never bill the client when the CG arrived and the client was not home.

SECTION 04. Cancellations, Live-In Overlaps & Food Stipend

Cancellations. The Full Circle

Scenario

Client cancels a shift, but the cancellation is NOT communicated to the CG in time. The CG still shows up, waits, and is turned away.

What Happens	Documentation Required
- The CG is paid 2 hours for their trouble, they showed up in good faith - The client is NOT billed, they canceled, so no service was delivered - Enter as 'Pay but Do Not Bill' for 2 hours - Add a note explaining that the cancellation was not communicated before the CG arrived	- Note must explain: 'Client canceled, CG arrived and was not notified in time' - Apply billing/payroll TAG on the note - Check 'Show on Billing Page' checkbox - Check 'Show on Payroll Page' checkbox - All four steps required for Shannon to see it

Critical

THE CHECKBOX RULE: When making notes about a shift related to billing and/or payroll, staff **MUST** check both 'Show on Billing Page' AND 'Show on Payroll Page'. These are the **ONLY** signal the billing coordinator has that something out of the ordinary occurred. If the boxes are not checked, the note is invisible during billing review.

Live-In Client Shift Overlaps

- For live-in clients, there should be NO overlap between shifts from different caregivers
- An overlap means two CGs are being billed/paid simultaneously for the same client, this is incorrect
- EXCEPTION: A 'special situation' can justify an overlap (handoff, transition day, training coverage) BUT clear notes must be present
- If an overlap exists with no notes: hold billing, investigate, and get clarification before processing
- Overlaps without documentation will hold up the entire billing run

Live-in overlap WITH clear notes OK to process - notes explain the special situation	Live-in overlap with NO notes STOP - hold billing, investigate before processing
Travel time - training day or shared home DELETE the entry - no real travel occurred	Travel time - different client addresses KEEP - valid travel between clients

Live-In Food Stipend

What Is the Food Stipend?

Some live-in clients choose to pay their caregiver \$25 per day as a food stipend. This compensates the CG for meals consumed during their live-in shift. It is optional and must be agreed upon with the client before it is applied.

How It Looks in WellSky

- The food stipend appears as a SEPARATE 1-minute shift
- Typical time: 12:00 PM - 12:01 PM (same day as the live-in shift)
- Billing shows \$25 per visit for that 1-minute entry
- This is NORMAL and expected, it is NOT a billing error
- Do not delete or adjust this shift during audits

Audit. What to Watch For

- If a food stipend appears for a client who did NOT agree to it: flag and investigate
- Stipend should only appear on live-in shift days, not on hourly visit days
- The \$25 amount is fixed, any different amount is incorrect and must be corrected
- If the 1-minute shift is missing and the client agreed to the stipend: it needs to be added

Food stipend for a Live-in caregiver.

SECTION 05. Missing Billing & Payroll Amounts

Why This Happens

- Rates were set up at intake but not entered the WellSky client profile
- A replacement CCM plugs in a different CG and has no reference for the correct rate, they guess or use a default
- Different CCMs may enter different amounts for the same client
- Over time, the same client can have multiple different rates across shifts, creating an audit problem

The Fix - Rates Must Be in the Profile

Required Standard

Every client profile in WellSky must have the correct billing AND payroll amounts entered and visible. This is the single source of truth. Any CCM replacing a CG should be able to see the correct rates without opening intake.

RULE: If you can't see the billing and payroll rate directly in the client's WellSky profile, the profile is incomplete. Fix it before the next shift is scheduled.

Client with rates correctly on their profiles.

Standard Service Agreement

Billing Rates

The billing rates for services are specified below. The Client understands these billing rates are subject to change. Right at Home will notify the Client at least 30 days in advance of the effective date of any rate increase based on current care plan. The Client's acceptance of services after the effective date of any changed rate constitutes acceptance of the changed rate.

For an individual:

The Hourly Visit Rate of \$ 32 will be charged for Caregiver hourly services, with a minimum of 4 hours per visit.

The Flat Visit Rate of \$ 125 will be charged per visit for 3 hour(s) or less.

The Live in Rate of \$ 500 will be charged per day; see live in addendum.

*if a sleep shift must be added to live in care, the rate will be the same as the hourly visit rate listed above. 4 night minimum applies, if 4 nights are not reached, client will be billed hourly rate instead and be responsible for any overtime incurred.

Updating Rates on a Client's Profile

Always go to 'Billing Policy' on the client's profile to update rates.

1. Go to the client's profile > Billing Policy
2. Update the rates as needed/requested
3. Click Save

UPDATING RATES ON A CLIENT'S PROFILE.

1. Always go to "Billing policy" on the client's profile.

What is your mileage travelled reimbursement rate for Tami Bartels?

☒ Use company default rate (\$0.59)

What is the default travel time pay rate for Tami Bartels?

Use Agency Defaults ▼

Does Tami Bartels always get paid using the Agency's holiday rate?

☒ Use Agency's holiday rate

WHEN UPDATING CAREGIVER'S RATE DO NOT TOUCH THE TRAVEL TIME SECTION — THIS MAY CAUSE ISSUES WITH TRAVEL TIME CALCULATIONS.

SECTION 06. Employee Incentives & Reimbursements

Reference: SOP.10019.H

Employee Incentives (Taxable to Caregivers)

Incentive Types

- Employee or client referral bonus
- Bonus for picking up a last-minute or hard-to-fill shift (use sparingly; must be approved by Kate or person in charge)

Standard Increment Amounts

Incentive	Amount
Incentive 1	\$15.00
Incentive 2	\$25.00
Incentive 3	\$50.00
Incentive 4	\$75.00

Custom Amount (Outside the 4 Standard Increments)

If paying a caregiver a different amount outside the four predetermined increments:

7. Go to CG profile > Payroll Rates
8. Update Incentive 1 to the custom amount
9. Click Save
10. Then proceed to scheduling the shift under the RAH Incentive profile

How to Enter Incentives in WellSky

1	Go to RAH Incentive profile: Assign a shift using the RAH Incentive profile. All bonuses must be approved by Kate or a person in charge before entering.
2	Create the shift: Include the CG receiving the incentive. Set shift duration to 1 minute.
3	Set Client Rate: Per Visit > select the matching incentive increment. Client bill = \$0.00 (Non-Billable).
4	Set CG Rate: Per Visit > select the matching incentive increment. CG pay = the selected incentive amount (Payable).
5	Add a note: Add a note on billing and payroll notifying the approval. Apply billing/payroll tag and check both checkboxes.

1. Go to RAH Incentive "Bonus" profile.

RAH Incentive "Bonus" +

Per Visit

☐ Bath Visit	22.00
☐ Bonus	0.00
☐ Community Task - Bathe Client	0.00
☐ Community Task - Feed Client	0.00
☐ Incentive 1	10.00
☐ Incentive 2	25.00
☐ Ride Services	0.00
☐ Transportation	0.00

If you need to set up the amount for a bonus.

Go to CG profile > Payroll Rates > update Incentive 1 > Save, then proceed to scheduling

Incentive shifts are always Non-Billable. The client (RAH Incentive) is never charged. The CG receives the incentive amount in payroll.

Reimbursable Expenses (Not Taxable)

Eligible Expense Types

- Parking fees incurred during a client shift
- Transportation to a shift: Uber, Lyft, etc. arranged by the CG
- Any purchase made by the CG on the client's behalf (groceries, medications, etc.)

How to Enter a Reimbursable Expense

- 1** **Navigate to Accounting > Payroll page:** Select the Care Dates for the previous week.
- 2** **Select the caregiver:** Find the CG being reimbursed and click on the blue \$ icon.
- 3** **Fill out the Expense/Credit screen:** Enter date, description, and the amount of the reimbursable expense as a POSITIVE number.
- 4** **Bill to client (if applicable):** If the expense needs to be billed to a client, check the 'Bill to Client' box and select the client.
- 5** **Click Save:** The entry will appear as a line item on the payroll and/or billing page.

This will appear as a line item on payroll and/or billing page.

SECTION 07. CG Mileage: Home to Client

Critical: When mileage Home-Client is NOT deleted, it causes two simultaneous problems: the CG gets paid for mileage AND the client gets billed for it.

Impact #1 - CG Gets Paid Incorrectly

- CG is reimbursed for travel that is their personal responsibility
- Home-to-client travel is the caregiver's commute — not a reimbursable expense
- This inflates payroll costs with no corresponding service delivered
- Must be caught and deleted before the payroll run

Impact #2 - Client Gets Billed Incorrectly

- WellSky automatically passes the mileage charge to the client's invoice
- Client is billed for travel that has nothing to do with their care
- Especially damaging for VA/AAA clients where billing is tightly audited

Audit Steps. How to Find and Delete Home→Client Entries

- 1** **Check every shift with mileage on billing page:** Look for any mileage entry tagged as 'Home to Client's Home' or similar, these are always incorrect and must be deleted.
- 2** **Verify the mileage type:** Client-to-client mileage (CG traveling between two different clients) is valid and should be kept. Home-to-client is not reimbursable under any program.
- 3** **Delete the entry:** Remove the mileage entry from the shift before the billing run. Do not adjust, delete entirely.
- 4** **Coach the CG:** Inform the caregiver that home-to-client mileage is their personal cost and should not be entered in WellSky. Document the coaching in a note.
- 5** **Confirm client's billing is clean:** After deletion, verify the client's billing section no longer shows the mileage charge.

Double verification with Client's tag

SECTION 08. Travel Time Policy

Always DELETE Travel Time When:

- CG attended any HCP Training, Orientation, or Incentive AND also had a client shift the same day, WellSky auto-generates travel between them
- Two clients share the same home or live in the same facility, WellSky adds travel when the CG clocks in for the second client
- In both cases, no actual travel occurred, the auto-generated entry is always incorrect

Keep Travel Time When:

- CG physically traveled from one client's home to a different client's home (different address, different location)
- WellSky calculates and adds this automatically, no manual entry needed
- Always cross-check: if clients share an address or facility, delete the travel regardless of what WellSky shows
- Verify client tag when reviewing mileage on the billing/payroll page

→ Travel time between clients that live in the same home/facility

SECTION 09. Mileage & Running Errands Policy

No Running Errands. AAA • VA • GUIDE

- AAA, VA, and GUIDE clients have NO access to running errands under ANY circumstance
- Exception: Curbside grocery pickup only CG picks up the order and delivers it en route to the client's home
- Clock-in begins AFTER the curbside pickup is completed, not before
- Any additional errand service must be paid for via Private Pay

Mileage Summary

Scenario	Action	Reimbursable?
CG home to Client A	Delete if entered by CG	Never
Client A to Client B (different address)	WellSky adds automatically, keep	Yes
Two clients share same home/facility	Delete auto-generated travel	Delete
Training day + client shift same day	Delete auto-generated travel	Delete

SECTION 10. VA/AAA Authorization Overages

The 15-Minute Rule

Why Caregivers Clock Out Late

- The clock-out process has multiple required steps: task completion, mileage entry, questions
- WellSky spinning, freezing, or not responding adds extra time
- This is the #1 most common billing issue for VA/AAA clients

Fix for Overages ≤ 15 Minutes

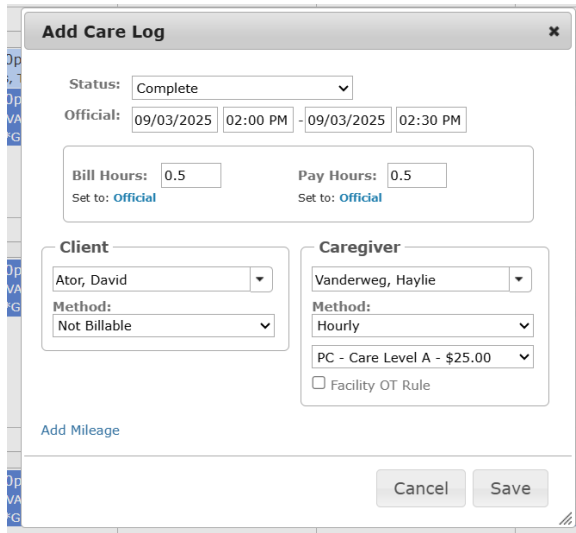

- Simply adjust the clock-out time back to the authorized end time
- Example: CG clocked out at 11:15am → change to 11:00am
- No new shift needed, one adjustment is all that's required

Overages Greater Than 15 Minutes. Full Process

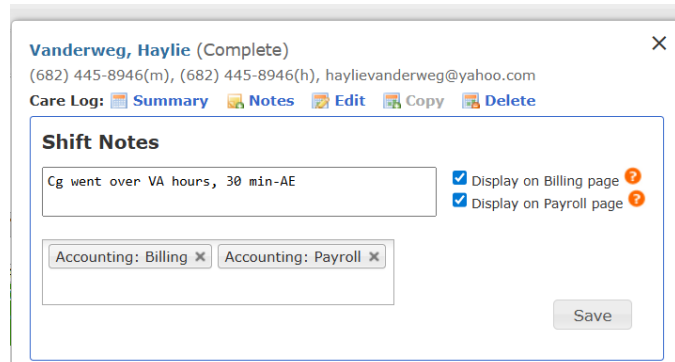

- 1 Correct the shift:** Adjust the shift end time back to the exact authorized amount (e.g., 2 hours if authorized for 2 hours).
- 2 Create a non-billable shift:** Add a NEW separate shift for the extra time. Mark it as NOT BILLABLE, VA/AAA will not reimburse unauthorized time under any circumstances.
- 3 Pay the caregiver:** The CG must still be paid for all time worked. The non-billable flag only affects the payer, not the CG's paycheck.
- 4 Document with note and tags:** Write a note ('CG went over VA/AAA Auth'), apply the billing/payroll TAG, and CHECK the billing/payroll checkbox, all three are required.
- 5 Verify the note:** Confirm the note appears on the billing/payroll page so Shannon can see it and process accordingly.
- 6 Coach if recurring:** If the same CG and/or client repeatedly goes over, coach both parties on the authorized hours and clock-out process.

☐ Ator, David						
☐ Donald Hancock	8/31 11:15a-1:15p	2	...942	\$67.00/hr		\$134.00
☐ Briget Cook	9/1 12:30p-2p	1.5	...942	\$67.00/hr		\$100.50
☐ Briget Cook	9/2 12p-2p	2	...942	\$67.00/hr		\$134.00
☐ Haylie Vanderweg	9/3 12p-2:30p	2.5	...942	\$67.00/hr		\$167.50
☐ Briget Cook	9/4 12p-2p	2	...942	\$67.00/hr		\$134.00
		10.00	0.00	0.00		\$670.00

Caregiver going 30 minutes over the Auth.

If it is more than 15 minutes, this is the way that a new shift created looks like, when the client has also a private pay option.

Correct way to add a note on a shift.

Always pay the CG. VA/AAA non-payment only applies to the payer, the caregiver is always compensated for time worked.

SECTION 11. Auth Connections & Auth Bar

Warning Signs of Unlinked Shifts

Warning Sign #1 - No Auth Number

- A shift on the billing/payroll page shows no Auth # next to it
- This shift is not contributing to the client's authorization usage
- May result in incorrect billing or unbillable time, investigate immediately

Warning Sign #2 - Auth Bar Has Remaining Hours

- The Auth Bar for the week shows hours remaining that should have been used
- Strongly indicates at least one shift in that week is not connected to the authorization
- The unlinked shift is 'floating' - not consuming auth hours as it should

Note

Exception - Private Pay + VA (Two Rates Expected): Some clients have VA authorization AND additional Private Pay hours. This is intentional. These clients will show TWO different billing rates and some shifts without a VA auth connection. Before flagging as an error: check the client profile to confirm whether Private Pay is set up alongside VA/AAA.

Warning sign #1 – No auth Number

☐ Emmerling, Mark Anthony					
☐ Maximina Verdin	9/1 1:10p-3:10p	2	...786	\$37.00/hr	\$74.00

Auth correctly billed

Auth #VA0050017786 HHA: 10.00 hours/week - 10.00 complete, 0.00 scheduled, 0.00 remaining				
1:10p-3:10p Verdin, Maximina (VA 31 HHA /Homemaker *G0156*)	5:15p-7:15p Verdin, Maximina (VA 31 HHA /Homemaker *G0156*)	1:10p-3:10p Verdin, Maximina (VA 31 HHA /Homemaker *G0156*)	5:15p-7:15p Verdin, Maximina (VA 31 HHA /Homemaker *G0156*)	11:15a-1:15p Verdin, Maximina (VA 31 HHA /Homemaker *G0156*)

Investigation Process. Connecting Unlinked Shifts

- 1 **Identify the shift:** Look for shifts with no Auth # on the billing/payroll page, or check the Auth Bar for unexplained remaining hours.
- 2 **Navigate to the client page:** Go to the client's profile, click the auth number on the schedule to access the authorization view.
- 3 **Review the Auth Bar day by day:** Go through each day of the affected week. The Auth Bar will show which day's hours are not being consumed — that's your unlinked shift.
- 4 **Rule out Private Pay:** Before linking, confirm the client doesn't have Private Pay + VA (two rates would be expected). Check client profile for Private Pay setup.
- 5 **Connect the shift to the correct auth:** Find the correct existing authorization and link the shift to it. Do not delete the shift or create a new auth.
- 6 **Verify Auth Bar after linking:** Re-check the Auth Bar to confirm the hours are now being consumed correctly.

Never delete an unlinked shift without investigating first, it may be a valid shift that simply needs to be connected.

SECTION 12. Rescheduling Rules by Program

AAA	VA H/HHA	VA Respite	GUIDE
• Same WEEK only • No exceptions • Hours cannot carry to a different week	• Same MONTH • CANNOT stack with another H/HHA shift • CANNOT happen same day as another H/HHA • Fixed consistent schedule required	• Same WEEK • CAN stack on top of another Respite shift • Flexible within the week • No carryover to next week	• ANY time within auth period • 72 hours total — no weekly limits • 4-hour shifts MINIMUM • No stacking limitations

Always confirm program type before rescheduling H/HHA and Respite have different rules even though both are VA.

SECTION 13. GUIDE + Private Pay: Dual Profile Billing

Why Two Profiles Are Required

WellSky cannot handle two different billing types (Medicare/GUIDE auth and private pay) within a single client profile. When a GUIDE client wants additional hours beyond their authorization, a completely separate profile must be created for those private pay shifts.

Original Profile GUIDE Auth	Second Profile- Private Pay
- Shifts billed to Medicare / GUIDE authorization 72 authorized hours total (4-hr shifts minimum) - Billed through Medicare - Used until authorization hours are exhausted - Do NOT enter private pay shifts here	- Profile name format: 'First Last GUIDE' (e.g., 'John Smith GUIDE') - Shifts billed at private pay rate, client pays directly - No hour limits, flexible scheduling - Requires ACH information on file - Requires a new, separate signed service agreement

Audit Red Flags

- Private pay shift billed under the original GUIDE profile:** → Wrong profile, billing cannot process it. Move the shift to the 'First Last GUIDE' profile.
- Shifts entered after auth hours (72 hrs) were exhausted, still on original profile → Once GUIDE auth runs out, all shifts must move to the private pay profile. Notify the client before switching.
- Client appearing twice in WellSky with no clear profile naming convention → Confirm the second profile follows 'First Last GUIDE' naming. If unclear, investigate before processing any shifts.

Client with a profile for Guide and Private Pay.

	Jerry McKeller
	Jerry McKeller GUIDE

Client using Guide hours and private pay at the same time.

SECTION 14. Documentation & Notes

The 3-Step Rule

Every billing/payroll correction must follow these three steps. All three are required — missing even one means Shannon cannot see it on the billing side.

- 1 Write the Note**
Explain clearly what happened. Be specific: 'CG went over VA Auth by 30 min' or 'CG sent home, client not home' or 'Non-billable overage, CG paid, VA not billed'
- 2 Apply the Tag**
Tag the note as 'billing/payroll', this categorizes it correctly in WellSky and ensures it's findable during audits
- 3 Check the Checkbox**
Check the billing/payroll CHECKBOX. this is what makes the note appear on Shannon's billing side. Without this, she cannot see it

Note on Billing Page

RESULT: When all 3 steps are completed correctly, a note appears on the billing/payroll page that Shannon can see. This process applies for ANY situation where you pay the CG but do NOT bill the client.

CORRECT NOTE ON BILLING/PAYROLL PAGE

☐ McGlamery, Hunter						
☐ Bonnie Mayers	9/2 12:30p-2:30p	2	...833	\$37.00/hr		\$74.00
☐ Bonnie Mayers	9/3 11a-1p	2		\$0.00/N/A		N/A
☐ Rachel Mayers	9/4 11a-1p	2	833	\$37.00/hr		\$74.00
			6.00	0.00	0.00	\$148.00

INCORRECT NOTE ON BILLING/PAYROLL PAGE – 15 MINUTES SHIFT WITH NO DETAILS OR NOTES

☐ Castillo, Luzet						
☐ Marlene Mitchell	9/1 9a-9:15a	0.25		\$17.00/hour	(h)	\$6.38
			0.25	0.00	0.00	\$6.38

SECTION 15. Full Audit Checklist

Use this checklist for every billing run. All REQUIRED items must be confirmed before submitting billing. VERIFY items should be checked when relevant. CHECK items are program-specific.

Part 1 of 4- Pay Rates & Shift Setup

Status	Check Item	Notes
REQUIRED	Verify no CG has two different pay rates for the same client	Check billing/payroll page per CG
REQUIRED	Confirm all shifts have the correct billing rate (flat or hourly)	Cross-reference intake / contract
VERIFY	For flat-rate clients: confirm shift is 3 hrs or less	3hrs 15min+ = switch to hourly
VERIFY	Flat rate overage >15 min: billing type changed to hourly?	Check intake for quoted hourly rate
REQUIRED	Private Pay + VA clients: confirm two-rate setup is intentional	Check client profile
CHECK	Confirm all shift start/end times match WellSky EVV records	Discrepancy = non-payment
REQUIRED	All shifts have a caregiver and client assigned correctly	No orphaned shifts
VERIFY	Shifts with no end time or open clock-outs must be closed	Open shifts block billing

Part 2 of 4. Per Visit, Profiles & Cancellations

Status	Check Item	Notes
REQUIRED	All per-visit shifts: CG worked exact authorized visit duration	≤15 min = adjust. >15 min = investigate
REQUIRED	Per-visit overage >15 min: who asked CG to stay? Client → bill hourly. CG fault → Pay/Do Not Bill	Never bill client unless they requested it
REQUIRED	Client not home on per-visit shift: CG paid hourly (not per-visit) for 2 hrs, not billed	Per-visit rate only for completed visits
REQUIRED	Every client profile has billing AND payroll amounts visible in WellSky	No rate = incomplete profile
VERIFY	Replacement CCM shifts: verify billing/payroll amounts match the profile, not a default	Different CCMs = inconsistency risk
REQUIRED	CG mileage Home→Client deleted from every shift	Leaves in payroll AND bills client if not removed
REQUIRED	Cancelled shifts where CG arrived: 2 hrs Pay/Do Not Bill + note + both checkboxes	Full circle: pay CG, no client bill
REQUIRED	Live-in overlaps: each has a clear explanatory note before billing is submitted	No note = hold billing and investigate

Part 3 of 4. Auth, Travel & Mileage

Status	Check Item	Notes
REQUIRED	All VA/AAA shifts are connected to an authorization number	<i>Auth Bar check per client per week</i>
REQUIRED	Auth Bar shows 0 unexpected remaining hours for the week	<i>Remaining hours = unlinked shift</i>
REQUIRED	No shifts exceed the authorized hours for the day	<i>Overages must be split into non-billable</i>
VERIFY	Overage ≤15 min: clock-out adjusted back to authorized time	<i>No new shift needed</i>
REQUIRED	Overage >15 min: separate non-billable shift created and documented	<i>Check for note</i>
REQUIRED	Delete travel time on training/orientation/incentive days	<i>WellSky auto-adds incorrectly</i>
REQUIRED	Delete travel time between clients who share the same home/facility	<i>No real travel occurred</i>
VERIFY	No 'Home to Client' mileage entries in billing for VA/AAA/GUIDE	<i>Coach CG if found</i>

Part 4 of 4. Documentation & Rescheduling

Status	Check Item	Notes
REQUIRED	Every billing correction has a note, billing/payroll tag, AND checkbox	<i>All 3 = note for Shannon</i>
REQUIRED	Non-billable shifts (client not home, overage) are documented	<i>Note must explain reason</i>
VERIFY	AAA shifts rescheduled within the same week only	<i>Cannot cross into next week</i>
VERIFY	VA H/HHA rescheduled within the same month, no same-day stacking	<i>Cannot stack with another HHA</i>
CHECK	VA Respite rescheduled within the same week (stacking allowed)	<i>Weekly limit, no carryover</i>
CHECK	GUIDE shifts are minimum 4 hours and within auth period	<i>72 hrs total until auth runs out</i>
REQUIRED	GUIDE + Private Pay: separate WellSky profile exists for private pay	<i>Profile + ACH + service agreement</i>
VERIFY	Any shift with 15-min discrepancy flagged and corrected before billing run	<i>Prevents VA/AAA non-payment</i>
