

LONG TERM CARE CLAIMS

SUBMITTING WEEKLY CLAIMS (SOP)

EDWIN YOUNG HEALTHCARE INC

LONG TERM CARE – SUBMITTING WEEKLY CLAIMS (SOP)

A Long-Term Care Insurance is a type of policy designed to help pay for ongoing personal care services if you become unable to take care of yourself due to aging, illness, disability, or cognitive conditions. It typically covers help with activities of daily living (ADLs), In-home care (home health aides), assisted living facilities, nursing homes / skilled nursing care and adult day care or memory care.

As homecare providers, we help our clients to submit their invoice and care notes for Below is a verified list from the Texas Department of Insurance of the most used LTC companies and their contact information:

Company	Phone Number
Bankers Life and Casualty Company	800-621-3724
Genworth Life Insurance Company	888-436-9678
Knights of Columbus	800-524-3611
LifeSecure Insurance Company	866-582-7702
Mutual of Omaha Insurance Company	800-548-2962
National Guardian Life Insurance Company	800-548-2962
New York Life Insurance Company	800-723-5555
Northwestern Long Term Care Insurance Company	800-890-6704
Thrivent Financial	800-847-4836
United Security Assurance Company (PA)	215-723-3044
John Hancock	800-377-7311
Transamerica	866-745-3544
Unum	800-331-1538
MassMutual	888-505-8952
Lincoln Financial (Lincoln Benefit Life)	888-503-8110
AIG	888-316-2672
Allianz	866-359-3476
CNA Insurance	800-262-1037
MedAmerica	800-544-0327
State Life (OneAmerica)	800-428-2316

How to submit a Claim to LTC companies?

Our clients will be reimbursed weekly, but for that to happen we need to send out the Invoice and care notes for the invoice billing period. Here we will go through the whole process of submitting an LTC claim: printing invoices & care notes, completing tasks on WellSky (automation), merging files, and sending out claims (Fax/email/Portal)

Printing Invoices

1. Go to the Accounting tab in WellSky and select “Receivables”

The screenshot shows the WellSky Client Resource Center interface. The top navigation bar includes tabs for Dashboard, Clients, Caregivers, CareFinder, Accounting, Reports, Care Requests, and Workflow Tasks. The 'Accounting' tab is selected, and a dropdown menu is open, showing options like Billing, Payroll, Receivables, Electronic Transactions, Scheduled Payments, Electronic Claims, Parent Payers, QuickBooks, and Rates & Policies. The 'Receivables' option is highlighted with a red box. Below the navigation bar, the 'Clients' section is visible, showing a table of client information with columns for Name, Home, Classification, Care, Primary Manager, Marketer, Last Visited, Family Login, and Emergency Management.

2. Set the filters to the following:

- 1st field dates → Make both dates the Friday following your service week, for example, service Dates 04/26 – 05/02. You will put BOTH dates in 05/08/2026.
- 2nd field → Select “Invoices”
- 3rd field → Select “Paid and Unpaid”
- 5th field → Add tag “Pay: LTC”

The screenshot shows the WellSky Receivables filter interface. The 'Filter' dropdown is open, showing the date range 05/08/2026 - 05/08/2026, Invoices, Paid and Unpaid, All Clients, All classifications, and Pay: LTC. The 'Go' button is visible. The background shows the 'Receivables' section of the interface with a table of client information.

3. Then press “Go”, you’ll get all invoices for every client with an active LTC policy. Check the box next to the invoice you want to print.

6. Do the steps above for all clients.

Completing Tasks on WellSky

The LTC companies are very much interested in ADLs, that's why we need to make sure all tasks are checked off on the care notes. Most often case is to find many incomplete or blank tasks,

completing tasks manually will be very time consuming, that's why we have designed a protocol to automate this step using Python.

To start, go to the WellSky task-completion Automation SOP "SOP_WellSky_DCL_Automation", there you'll find all steps to download Python and get your systems set to run the code.

Here are the steps you will need to do weekly:

1. Identify the Clients that have Incomplete or not checked-off task. Open a Sticky Note or Notepad and save following information:

```
python -m venv .venv
Set-ExecutionPolicy -Scope CurrentUser RemoteSigned
. .\.venv\Scripts\Activate.ps1
pip install --upgrade pip
pip install playwright
playwright install chromium
python capture_login_state.py
```

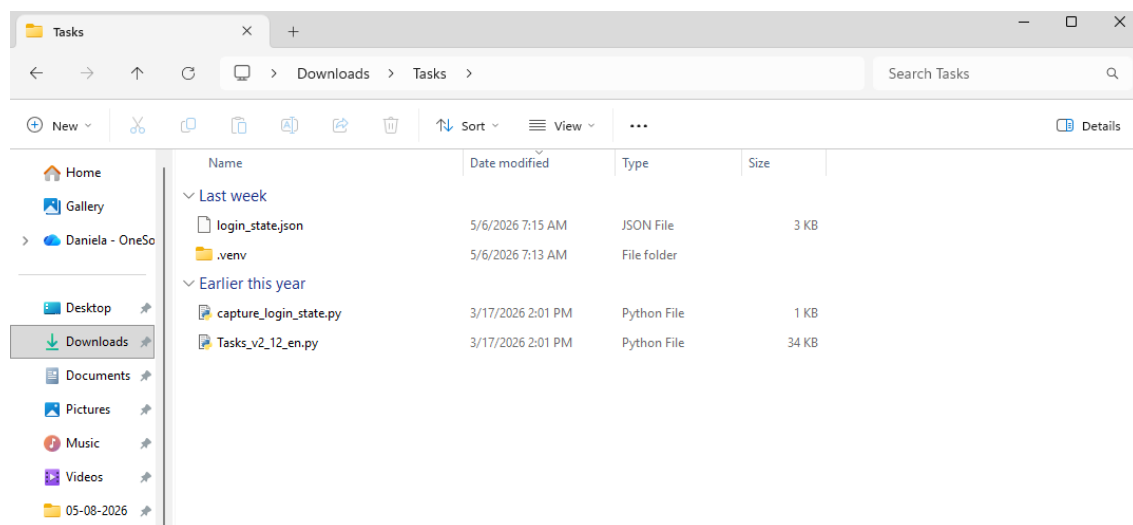

Your RAH email: admin@rahaustinwest.com
Password: Summer2026!

```
python Tasks_v2_12_en.py --client-url "" --year 2026 --month 5 --start-day 3 --end-day 9 --headful
```

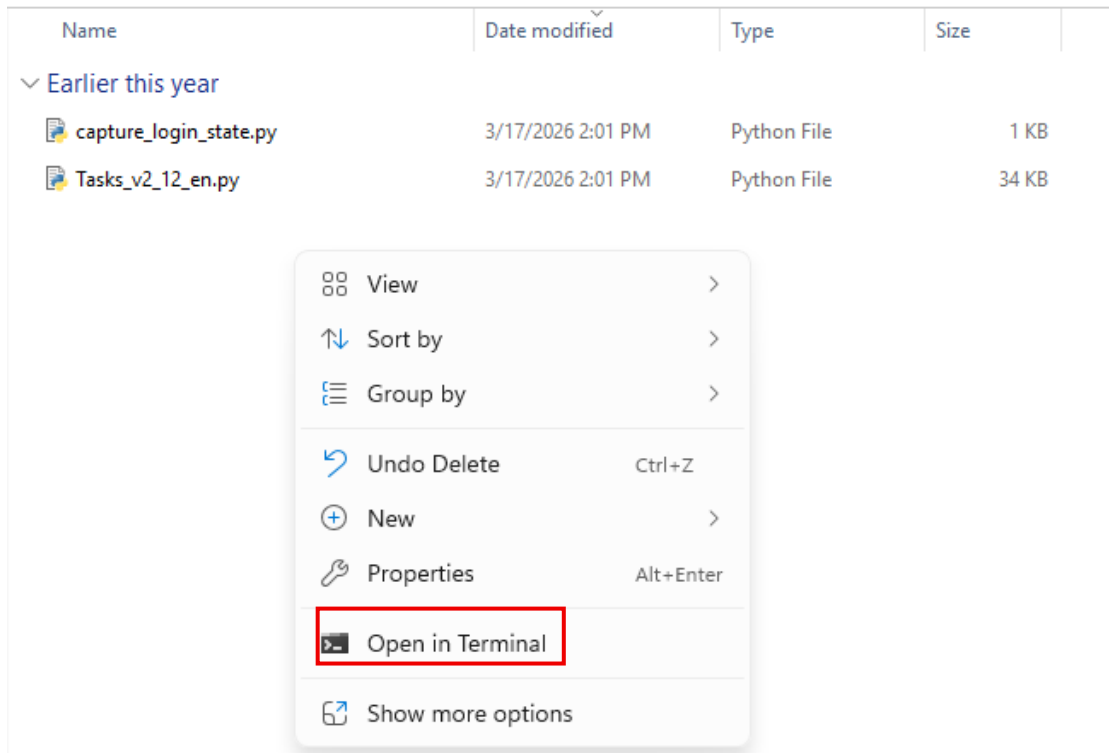

2. In the quotes "" you'll paste the Client's WellSky profile URL:

```
python Tasks_v2_12_en.py --client-url
"https://rahaustinwest.clearcareonline.com/clients/8403965/" --year 2026 --month
5 --start-day 3 --end-day 9 --headful
```

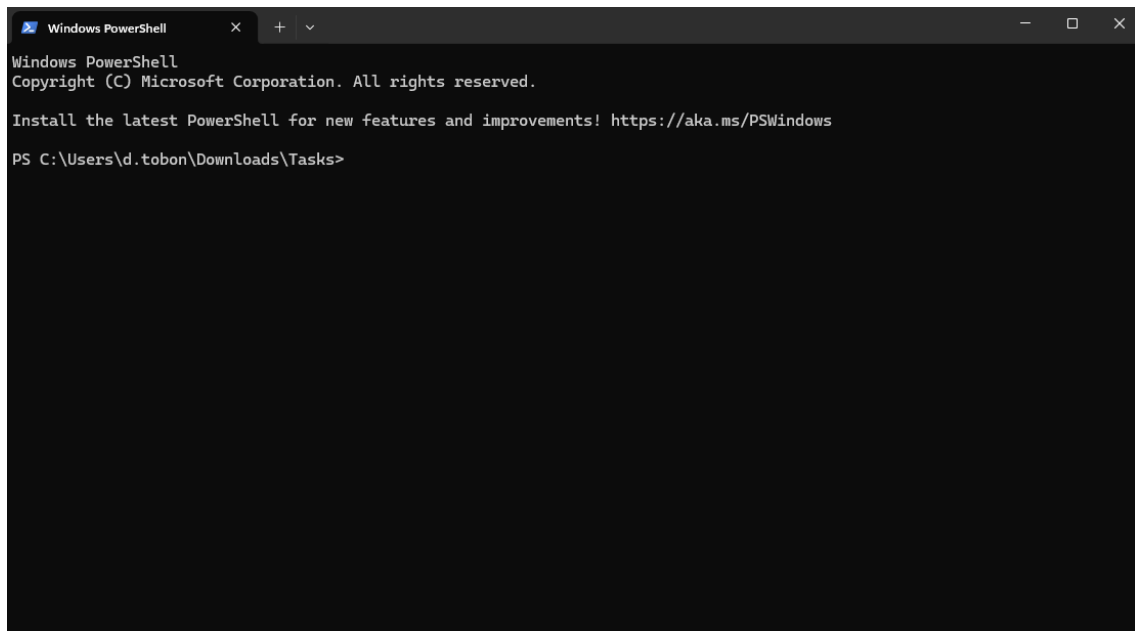

3. Go to the Folder you created on STEP B of the SOP "SOP_WellSky_DCL_Automation", and delete the files: "login_state.json" & ".venv"

4. Right-click anywhere and the click on “Open in Terminal”

5. Another page (Windows PowerShell) that looks like this will pop-up:

6. You can start pasting each line of the Step 1 in the Windows PowerShell, then hit ENTER:

```
Windows PowerShell

Installing collected packages: typing_extensions, greenlet, pyee, playwright
Successfully installed greenlet-3.5.0 playwright-1.59.0 pyee-13.0.1 typing_extensions-4.15.0

[notice] A new release of pip is available: 25.3 -> 26.1.1
[notice] To update, run: python.exe -m pip install --upgrade pip
(.venv) PS C:\Users\d.tobon\Downloads\Tasks> playwright install chromium
(.venv) PS C:\Users\d.tobon\Downloads\Tasks> python capture_login_state.py
Login manually. Once you log in, please return to this console.
Press ENTER to save the log in state...|
```

7. A Google Chrome WellSky page will open, login with your credentials and then go back to the Windows PowerShell and hit ENTER

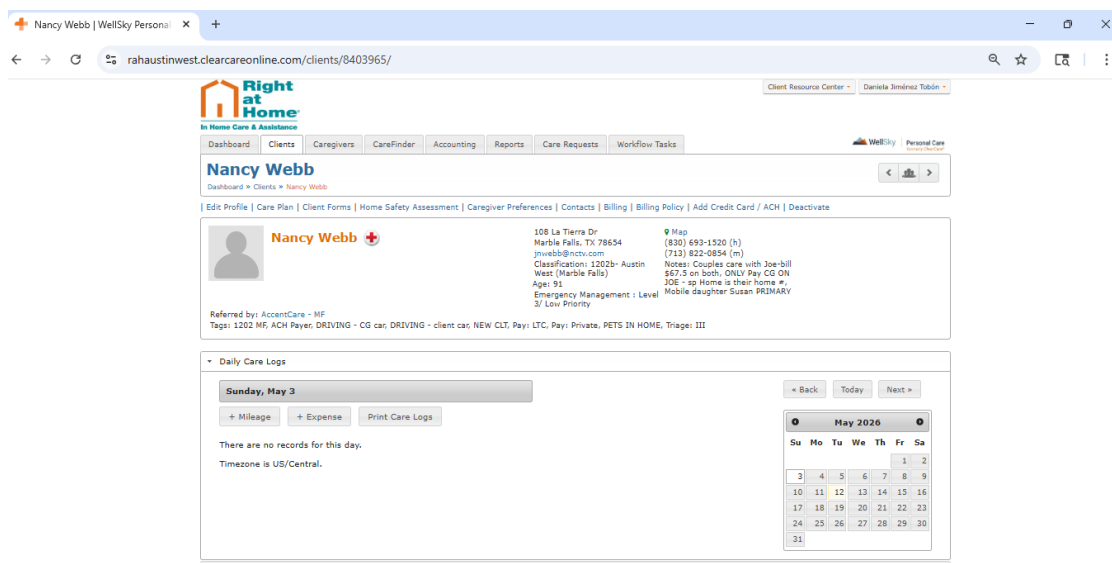

- The Google Chrome WellSky page will close and you'll paste the code that will complete the tasks in the Windows PowerShell box and press ENTER:

```
python Tasks_v2_12_en.py --client-url
"https://rahaustinwest.clearcareonline.com/clients/8403965/" --year 2026 --month
5 --start-day 3 --end-day 9 --headful
```

```
(.venv) PS C:\Users\d.tobon\Downloads\Tasks> python Tasks_v2_12_en.py --client-url "https://rahaustinwest.clearcareonline.com/clients/8403965/" --year 2026 --month 5 --start-day 3 --end-day 9 --headful
[23:35:06] Starting...
```

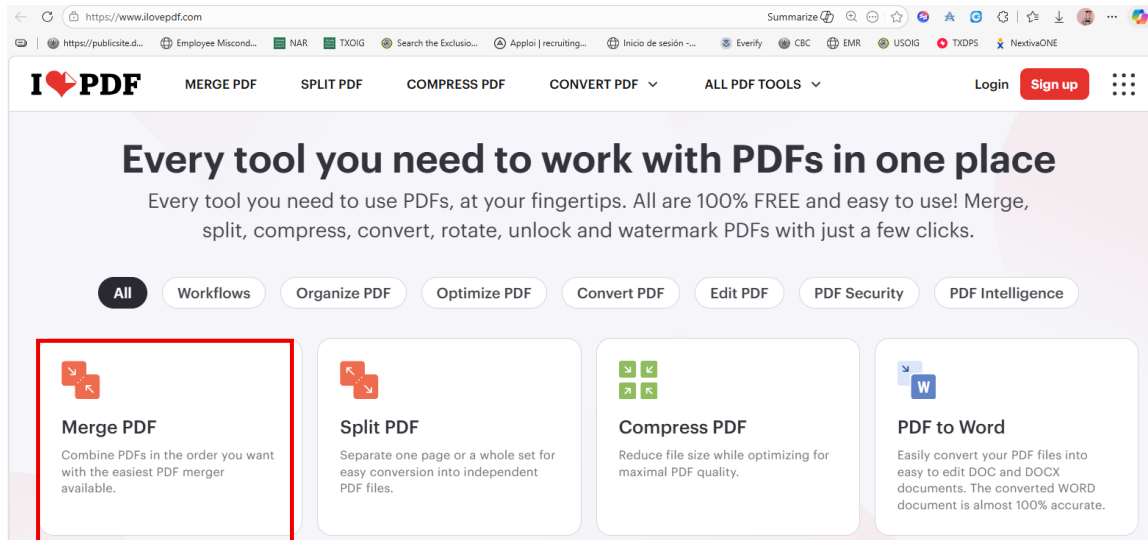

- Once again, Client's profile will open and the tasks will start completing automatically.

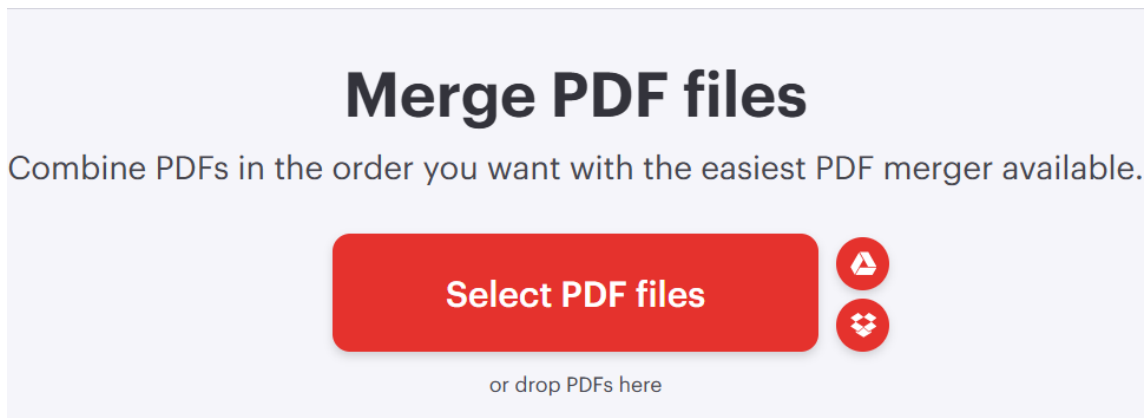

10. When code is done running, you can print care notes as usual and continue with next client.

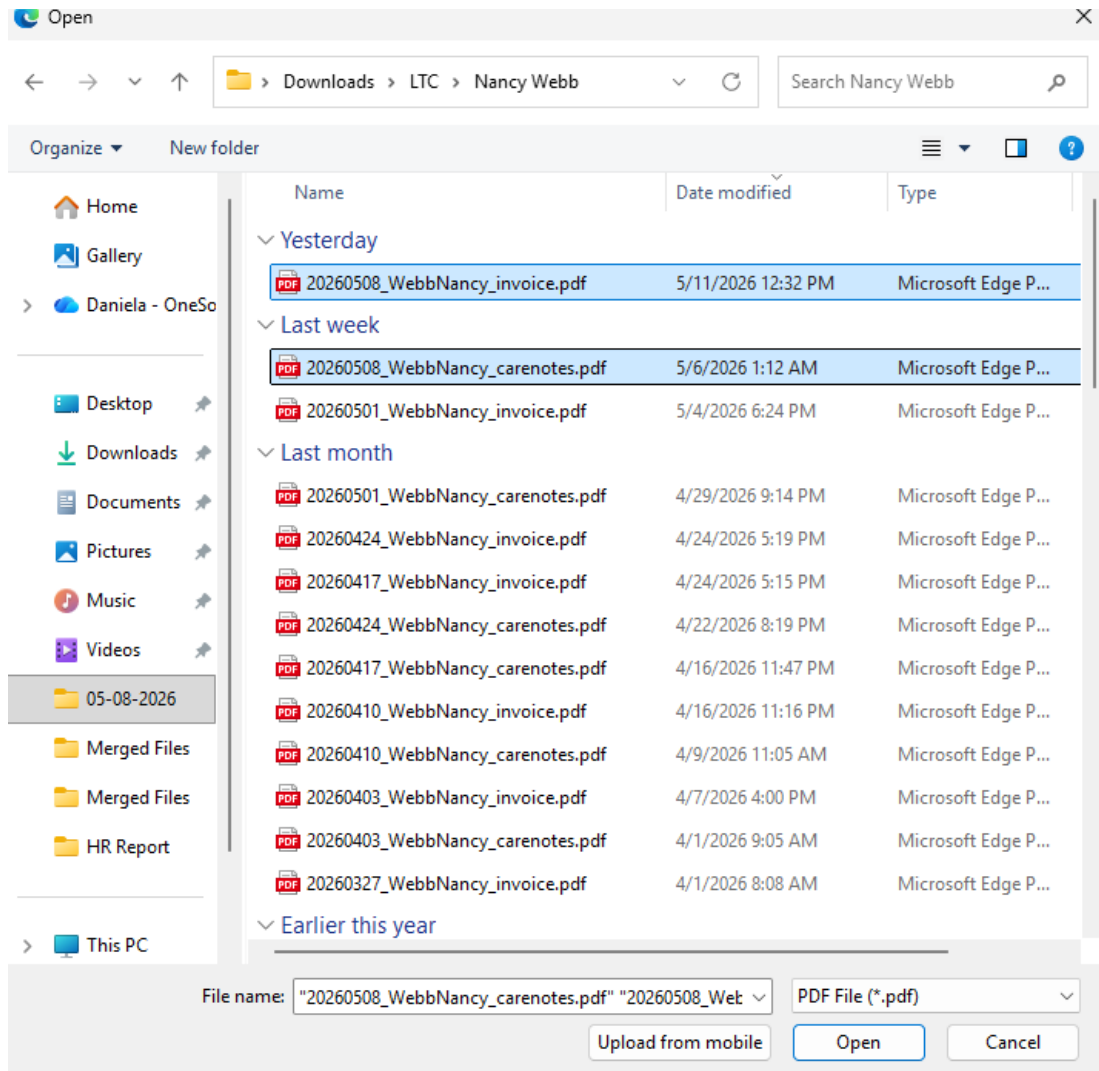

Merging Files

1. Go to www.ilovepdf.com and select “Merge PDF”

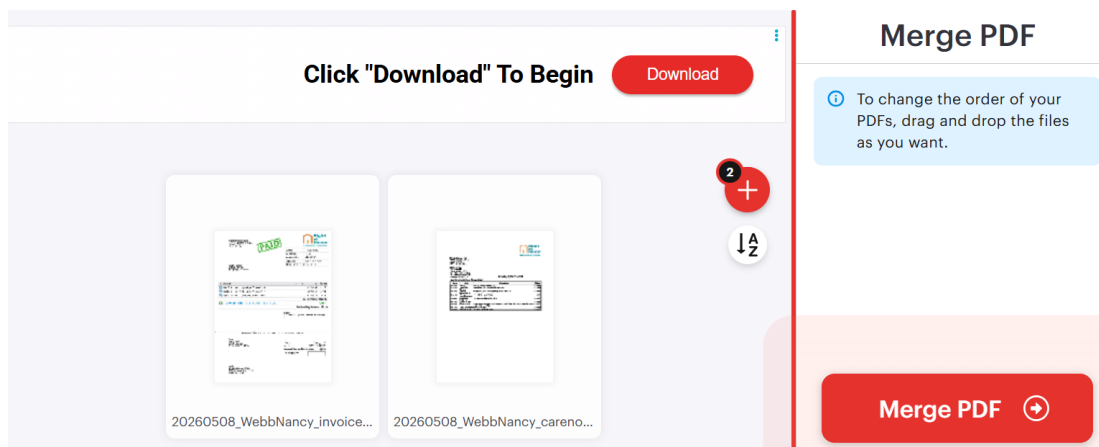

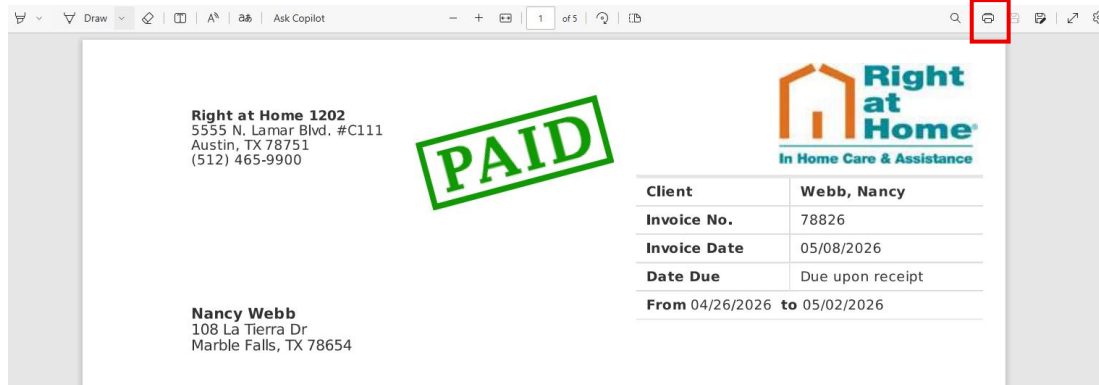

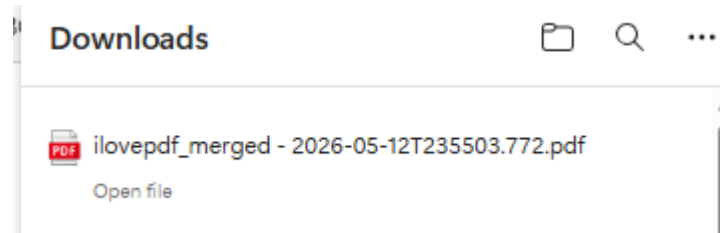

2. Click on “Select PDF files” and choose the invoice and care notes files for each Client (Press “Ctrl” and Click both files), then select “Open”

3. Select “Merge PDF”, the file will download automatically, open that file and print it

4. Title the document: date_lastname_Invoice&Carenotes and save in LTC folder. Example: 20260508_Webb_Invoice&Carenotes

Submitting the Claim

Check the Excel/Spreadsheet file, you can check submission method, and everything related to each Client's policy.

1. Email submission:

3. Portal submission:

You'll find links for John Hancock and MedAmerica on Excel/Spreadsheet file, you just need to fill out the forms and attach Invoice and carenotes.

Note: At the very end of the John Hancock form you'll find the "Provide proof of payment", always select "Invoice reflects proof of payment details".

Provide proof of payment *

[View the Proof of Payment submission guidelines.](#)

How were you paid? *

None selected 

Provide proof of payment *

[View the Proof of Payment submission guidelines.](#)

How were you paid? *

Invoice reflects proof of payment details ▼

Ensure you are submitting valid proof of payment. You have indicated that your invoice reflects detailed information of the payment made to your long term care provider for the dates of service you are submitting for reimbursement. Examples are auto bill, credit card payment, and ACH detailed on the invoice. [View the proof of payment submission guidelines here.](#)
