

Plan for CG's Who Quit & We Want Back SOP

If a Caregiver calls or emails in stating that they are quitting here is how you should handle it:

First you need to call the Caregiver, if they do not answer then LVM, also send follow up text stating you need to speak with them:

1. Find out the root of the problem – Is it their client and they do not want to go back? Is it the location of the client? Is it the pay?
 - a. Its ok to ask questions until you understand.
2. Try to recover and see what it will get for them to stay with us
3. What can we offer to them

1) Phone Script for initial “I quit” call:

Hi __,

I understand you are resigning from Right at Home. Can you tell us more about what led to this decision?

Is there anything we can do to change your mind?

I do understand. We just wanted to reach out to you and let you know that we have truly enjoyed working with you and you are welcome to come back when the time is right for you. We value good caregivers, and you will be missed by us and your clients.

I'm putting a note in your file that you are welcome back anytime. please call us whenever you want extra work or if you need a reference for a job or for school.

Thank you for taking the time to talk with me.

- Set reminder in CC for step #3

2) Cut and paste email or text for initial “I quit” contact if you can't get them by phone:

We received your notice that you are resigning from Right at Home. We would very much like to learn more about what led to this decision. Could you call us, or can I call you to discuss this?

We do want you to know that we have truly enjoyed working with you and you are welcome to come back when the time is right. We value good caregivers, and you will be missed by us and your clients.

Please call us whenever you want extra work or if you need a reference for a job or for school.

Sincerely,

* Set reminder in CC for step #3

Once we find out the above questions then we better assist them.

Ask if they could do a huge favor for them - and for us- and put in their 2 weeks' notice or last resort even a weeks' notice. Let them know that this client will go without care until we have someone to send and any kind of notice they can give would be so helpful.

If they respond with no they are leaving us now, then put in very detailed notes so if they ever come back to work with us then we can take that into consideration.

When you deactivate Caregiver you will choose the option Termination - Quit in CC,

3) Cut and paste email or text for 14 days out from quitting:

WE MISS YOU!

Just wondering how you are doing and how you like your new job.

Please don't forget about us and please know that you are welcome to work with us anytime. We need good caregivers like you!

Call us or come by and see us

* Set reminder in CC for step #4

.

4) Mail the "Come back" postcard at 45 days out.

If you don't have the postcard, then mail a handwritten note asking them to come work with us again.

* Set reminder in CC for step #5

5) 90 days out -

Call and just talk with them and ask if there is any way they will come back to work with us. See script above and sell them on our flexibility, benefits, extra money, etc. If pay rates have increased, then tell them we have cases that pay more

*. Set reminder in CC for step #6

6) 180 days out -

resend the 14 days out email

* Set reminder in CC for step #7

7) 365 days out -

Mail them the comeback postcard or a hand written card welcoming them back
