

Care Note Compliance Tool

Standard Operating Procedure

1. Purpose

Care notes are a legal documentation requirement under the Texas HHS license and a VA compliance obligation. This tool enables supervisors and office staff to:

- Identify caregivers with incomplete tasks or missing shift notes on a weekly basis
- Prioritize follow-up for VA and LTC clients, who carry the highest compliance risk
- Track documentation trends across all five offices
- Support coaching conversations and corrective action with accurate, objective data

2. Scope

This SOP applies to all Right at Home office staff who are responsible for caregiver supervision, care quality monitoring, or compliance reporting. The tool is accessible via a shared browser link and requires no software installation.

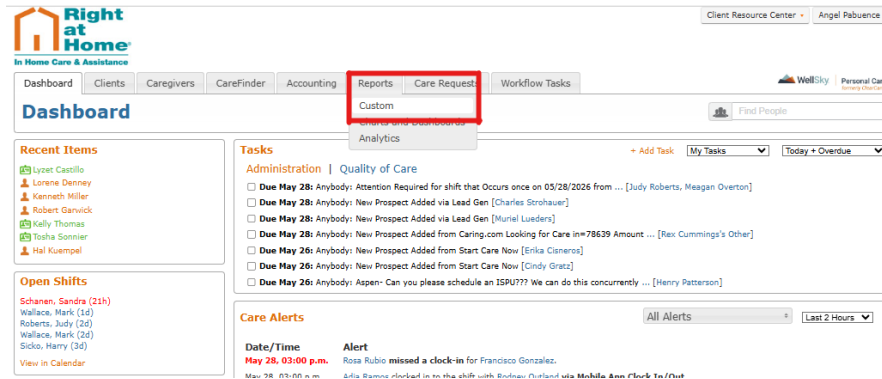

3. Definitions

Term	Definition
Care Log Status	The overall status of a shift record in WellSky. This tool only analyzes shifts with status 'Complete'.
Task Status	The completion status of an individual care task within a shift (Complete or Incomplete).
Care Plan	The list of tasks assigned to a client in WellSky. A client with no tasks has 'No Care Plan'.
Payer Tag	A label on the client record indicating the funding source: VA, LTC, Private, GUIDE, or AAA.
Action List	The Excel tab contains only shifts with incomplete tasks or no care plan, sorted by priority.

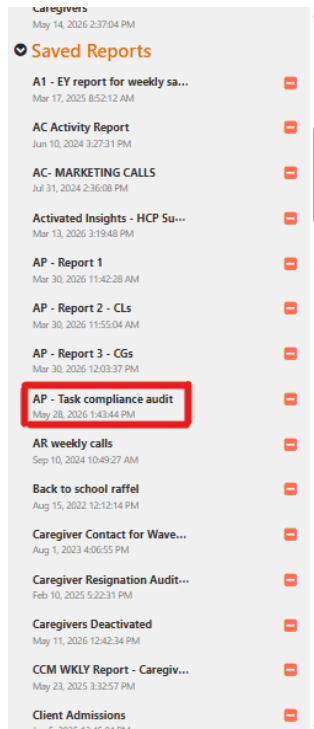

4. Step-by-Step Instructions

Step 1. Export the Report from WellSky

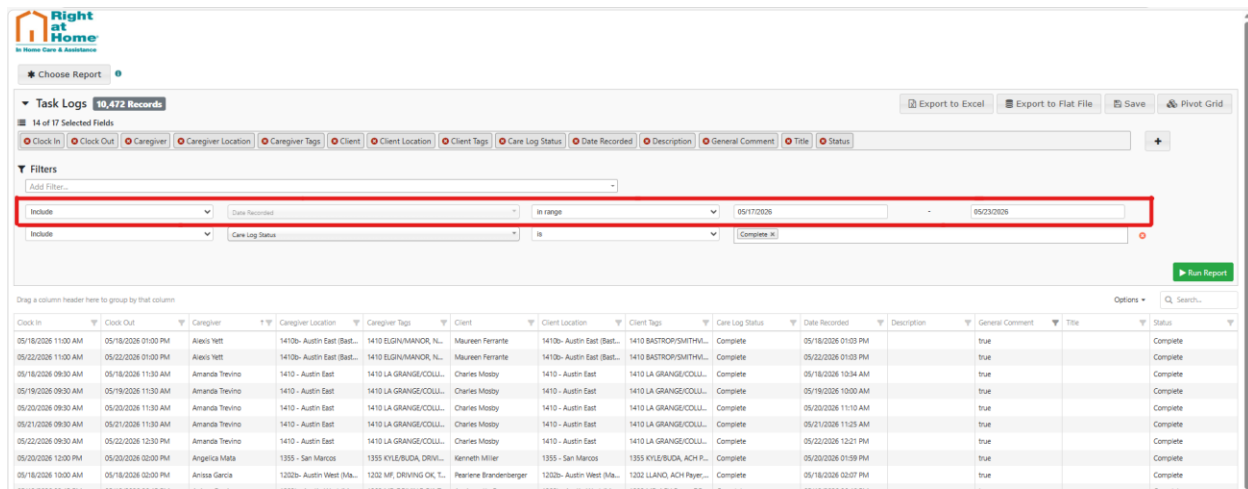

1. Log in to WellSky / and navigate to the Reports tab and the click on Custom.

2. Go to “Saved Reports” and then click on the Report named: “AP - Task Compliance audit”

3. Set the date range to cover the full week to review (Sunday through Saturday).

6. Save the file to your computer. The file name will include the date range automatically.

Important. Export Settings

Always make sure 'Completed' shifts only. Cancelled or pending shifts do not require documentation and will not be analyzed by the tool.

The date range must be set manually each week. There is no automatic scheduling.

Supported File Formats

The tool accepts both .xls and .xlsx formats. Both are valid WellSky export formats.

If you see an error about missing columns, verify the report type selected in WellSky is the “AP - Task Compliance audit”

Step 4. Apply Filters

Use the filters at the top of the tool to focus the report:

- From / To: Adjust the date range if needed. Defaults to the full date range in the file.
- Office: Filter to a specific office or leave as 'All offices' to see the full picture.
- Payer Type: Filter to VA, LTC, Private, GUIDE, or AAA clients only.
- Show shifts with issues only: Toggle this on to hide complete shifts and focus only on problems.

Right at Home — Care Note Compliance
Upload a WellSky export to generate your compliance report

Drop WellSky export here or click to upload
Supports xls and xlsx - Data never leaves your computer
task-logs 5-17 to 5-23.xls

Drop WellSky export here or click to upload
Supports xls and xlsx - Data never leaves your computer
task-logs 5-17 to 5-23.xls

From: 05/16/2026 To: 05/24/2026 Office: All offices Payer type: All types

☒ Show shifts with issues only

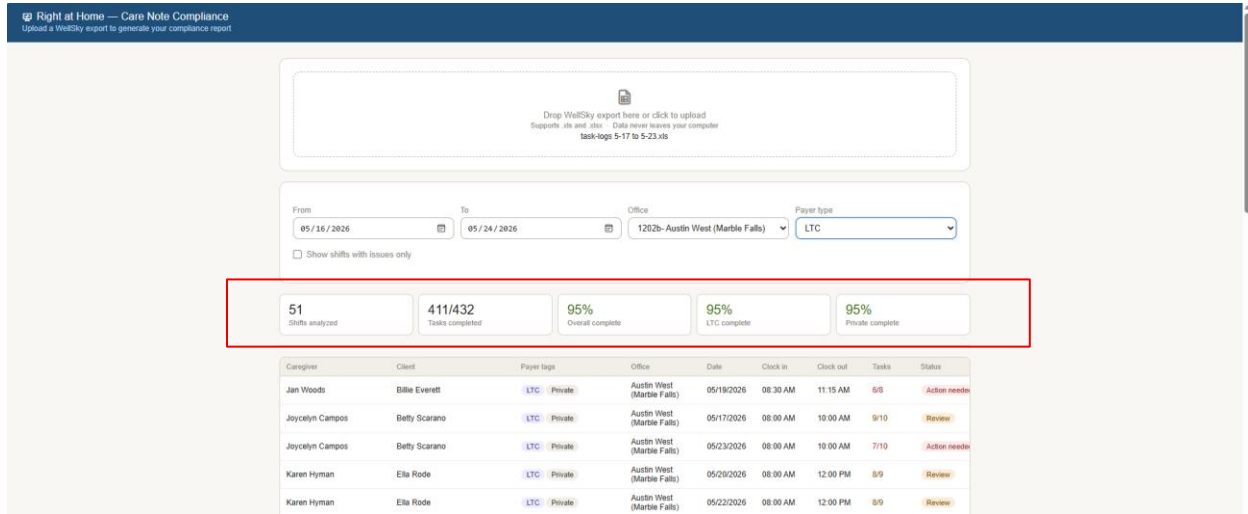

710 Shifts analyzed 9,206/10,472 Tasks completed 88% Overall complete 87% Private complete 94% LTC complete 89% VA complete

Caregiver	Client	Payer tags	Office	Date	Clock in	Clock out	Tasks	Status
Andrea Milligan	Michael Lovato	VA Private	Austin West	05/20/2026	08:00 AM	01:00 PM	11/12	Review
Andrea Milligan	Michael Lovato	VA Private	Austin West	05/20/2026	01:00 PM	04:00 PM	11/12	Review
Andrea Milligan	Michael Lovato	VA Private	Austin West	05/21/2026	07:30 AM	03:30 PM	11/15	Action needed
Andrea Milligan	Michael Lovato	VA Private	Austin West	05/22/2026	07:30 AM	03:30 PM	11/15	Action needed

Step 5. Review the Metrics

The metrics bar at the top of the results shows:

- Total shifts analyzed for the selected period and filters
- Tasks completed, format: completed / total (e.g., 9,181 / 10,472)
- Overall % complete, color-coded green (95%+), yellow (80-94%), or red (below 80%)
- % complete broken down by each payer type present in the data (VA, LTC, Private, etc.)

Step 6. Interpret the Compliance Table

Each row in the table represents one shift. Review the following columns:

Payer Tags

Tag	Color	Meaning	Priority
VA	Blue	Veteran client. VA payer	Highest. Review first
LTC	Purple	Long-Term Care client	High
Private	Gray	Private pay client	Standard
GUIDE	Green	GUIDE program client	Standard
AAA	Orange	AAA-funded client	Standard

Caregiver	Client	Payor tags	Office	Date	Clock in	Clock out	Tasks	Status

Showing 146 of 146 shifts (146 total after filters)

[Download Excel report](#)

14. The file will download automatically to your computer with the date range in the filename.

a. Example filename: care_compliance_2026-05-17_to_2026-05-23.xlsx

15. The report contains three tabs:

Tab	Contents	Use For
All Shifts	Every completed shift with full detail	Audits, full weekly review
Caregiver Summary	One row per caregiver, % complete, payer breakdown	Performance tracking, coaching conversations
Action List	Only shifts with issues, VA sorted first	Daily follow-up, supervisor assignments

After downloading the report, use the Action List tab to guide follow-up:

- Page 10

5. Frequency & Ownership

Task	Frequency
Export WellSky report	Every Monday. Covers from Sunday - Saturday
Upload and run compliance tool	Every Monday
Review Action List and follow up	Within 24 hours of report generation
Document coaching conversations	As needed, same day
Escalate No Care Plan clients	Same day as identified

6. Troubleshooting

"Missing columns" error on upload

This means the exported file is not the Task / Care Log report from WellSky, or required columns are missing. Verify the report type and re-export. Required Columns: Caregiver, Client, Client Location, Clock in, Clock out, Care log Status, Status, Title, Client Tags.

Client shows 'No payer tag'

The client does not have a Pay: tag in their Client Tags field in WellSky. Update the Tags on Client's profile.

Client shows 'No care plan'

No tasks are assigned to this client in WellSky. The caregiver cannot document tasks that do not exist. Update the client's care plan based on the intake.

Tasks show a small discrepancy vs. WellSky raw counts

WellSky occasionally exports task rows with a blank Status field (neither Complete nor Incomplete). These rows are counted in total but cannot be classified. This is a data issue in WellSky and does not affect the accuracy of the Action List.

Known limitations: Incomplete tasks with caregiver justification

WellSky allows caregivers to leave a comment on individual incomplete tasks explaining why a task was not performed (e.g., “No shower today”, “No errands today”). However, the WellSky export does not include the text of these task-level comments. The “General Comment” column in the export only reflects whether a shift-level comment was submitted, and this field is not consistently populated across all shifts.

As a result, the tool cannot automatically distinguish between a task that is genuinely incomplete and one that was intentionally skipped with a valid reason. The status thresholds (Review / Action Needed) are based on completion percentage only and should be treated as a starting point for further review.

Before coaching, please make sure that the incomplete tasks have a comment or if there is a reason why the caregiver skipped it.

For example, if we check the tool in this shift, it might look like Anissa did not complete two tasks.

Anissa Garcia Lorene Denney Private Austin West (Marble Falls) 05/20/2026 08:15 AM 02:00 PM 4/6 Action needed

However, if we check on WellSky, we will be able to see that the reason why she did not complete the tasks is because the client did not need help with them. We cannot identify this with the WellSky report. This is why it is important to verify WellSky before coaching a caregiver.
